

Equipment Protection that's Magnetic

Eriez® Mfg. Co.'s ProGrade® Model B ferrous traps offer unmatched protection for sensitive processing equipment, such as pumps — at an affordable price. According to the company, the magnetic traps:

- Preserve product purity by removing small particles of magnetic scale, rust and fine iron contamination from liquids or slurries.
- Are available in Rare Earth and Xtreme® Rare Earth magnet strengths, enabling professionals in diverse industries to choose the ideal level of protection for their specific application.
- Feature all stainless steel construction and glass bead surface finish.
- Are designed for product and clean-in-place (CIP) temperatures up to 250°F and pressures up to 150 psi.
