

# Hydraulic Pressure Generation

E Instruments introduces the P100 gauge and hand-held pump for pressure calibration with ranges up to 15,000 PSI (1,000 BAR) in an easy-to-use design. The company believes that the P100 additionally offers:

- The display of and ability to select engineering units in BAR, Mpa, Kpa, PSI and mBAR.
- An accuracy of  $\pm 0.20$  or  $\pm 0.05$  percent of full scale.
- A hydraulic range from vacuum up to 1,000 BAR.
- Fine-Adjustment Vernier.
- A positive and negative peak function.
- Pressure release value.
- An easy-grip handle spring with scissor action.
- The inclusion of a calibration certification.
