

The Most Powerful Jaw Crusher Ever!

According to FRITSCH, its PULVERISETTE 1 *premium* jaw crusher is the most powerful ever, not only with up to 3 kW of drive power to ensure high throughput during pre-crushing of hard and very hard brittle materials, but also featuring:

- Completely retractable, movable crushing jaws, which are fixed or removable for easy cleaning.
- Integrated dust exhaust channels to optimize working conditions.
- Easy zero-point and gap width adjustment in millimeters (in a single motion) via double eccentric technology.
- Optimal sound insulation due to foam-filled side walls.
- A robust design intended for the toughest loads.
- Simple and reproducible operation.
