

Safe Thermometers Eliminate Mercury

Ashcroft® Maxivision® bimetal thermometers are safe and reliable, eliminating the use of mercury to measure temperature. Other features include:

- Ranges from -80° to 1,000°F (and Celsius equivalents).
- Standard stem lengths from 2-1/2 through 24 inches, plus special-order stems up to 60 inches.
- A fixed rear or bottom stem with Everyangle™ technology, which allows the stem angle to be adjusted.
- Dial diameters from 2 to 5 inches.
- Hermetic sealing for easy washdown or liquid filled to counter high vibration.
- Stainless steel construction.
- Suitability for virtually every difficult installation.
