

## Explosion-Proof String Lights

Larson Electronics LLC's EPL-SL-10-LED one-hundred-watt, explosion-proof string lights are designed for operators needing to illuminate long hazardous areas, including tunnels. According to the company, the lights offer:

- Long bulb life, extreme durability and little heat output for operators in confined spaces.
- Class 1 and Class 2 Division 1 rating.
- More light than a comparable stringer equipped with 100-watt incandescent bulbs.
