

## Run-a-Weigh with a Portable Solution

Cardinal's USA-made Run-a-Weigh weighs in at less than 100 pounds and features built-in handles and wheels. According to the company, the scale is:

- Easy to lift and roll.
- Able to offer complete portability for weighing barrels, drums and small crates.
- Characterized by integral ramps for maximum portability.
- Available in either 1,000- or 500-pound capacity with mild steel checkered deck or wash-down stainless steel deck with IP69K-rated indicator.
- Offered with self-aligning feet and battery power options.
