

Safety-Coated Amber Bottles

BrandTech® Scientific's safety-coated amber bottles are designed to be used with Dispensette® and seripettor® dispensers and Titrette® bottle-top burettes. The company says that the bottles are characterized by:

- Bottles are made of soda-lime glass with a LDPE pouring ring and polypropylene screw cap.
- Ethylene acrylate coating helps contain contents in case of accidental breakage.
- Bottles are available in 250-milliliter, 500-milliliter and 1-liter sizes.
