

Square, Rectangular & Round Grates

Eriez® offers economical ProGrade® Square, Rectangular and Round Grates to remove ferrous contamination in hoppers, chutes, floor openings and other areas where free-flowing materials are present. According to the company, the magnets are:

- A perfect fit for square, round and odd-shaped processing lines or hoppers.
- Installed by simply placing the grate in the hopper with the ends of the magnetic tubes or tie bars resting against the sides.
- Available in Ceramic, Rare Earth and Xtreme® Rare Earth magnet strengths.
- Characterized by a neat, uniform glass bead surface finish; Xtreme Rare Earth ProGrade Square, Rectangular and Round Grate models feature sanitary construction, and Rare Earth and Xtreme Rare Earth designs are suitable for temperatures up to 150°F.
