

Extending for a 25-Foot Reach

Larson Electronics announces the addition of the EPEXC-25, a 25-foot explosion-proof extension cord with wet-area suitability, designed to allow operators to safely and securely increase the range of their equipment and devices with areas deemed hazardous. According to the company, the cord is:

- Ideal for use in areas where flammable gases and vapors may be encountered.
- Rated for 15 amps continuous.
- Offered with 25 feet of oil- and abrasion-resistant 12/3 SOOW explosion-proof cord, a single wet-area suited 20 amp receptacle, and a 15-amp, two-pole two-wire T-style explosion-proof plug.
