

Production Training Platform

The SISTEM® Training Platform from Alchemy Systems features a content authoring tool, a centralized course distribution feature and the ability to access the user interface in multiple languages.

- Houses a more modern user interface enabling faster and easier navigation for training facilitators
- Ability to access the interface in French Canadian, Spanish or English
- Human Resources and Workplace Safety libraries have been updated
- Updated libraries include new courses as well as updates that reflect the most recent industry regulations and best practices
- More than 30 courses have received updates
