

# Warehouse Management System

Accellos offers its WMS as part of an overall supply chain solution. It features a combination of robust functionality and seamless integration components. AccellosOne Warehouse acts as the hub of a supply chain solution, integrating accounting/order and shipping software systems, electronic data interchange (EDI) systems, Crystal Reports software, radio frequency and barcode hardware, and warehouse automation equipment. This suite includes a range of solutions including:

- Warehouse management
- Automated data collection (WMS Lite)
- Business intelligence
- Scheduling
- Package Tracking
- Transportation automation
- Documentation management
