

150 Watt Trailer Hitch Mounted LED Light

Larson Electronics' LEDTH-30X5W trailer hitch mounted LED light is ideal for moderate sized work areas, producing a 14,790 lumen light beam and includes a durable and adjustable trailer hitch mounting system.

- Mounting system provides highly secure and stable placement of these telescoping lights to heights of eight feet
- Using the vehicle servicing as a base stand, operators get the benefit of several thousand pounds of ballast to anchor the light
