

Breathing Air And Clean Fluid Hose Reels

Coxreels® has added the Pure Flow Series that has been designed specifically for breathing air and clean fluid transfer applications. These models have non-corrosive air and fluid paths with machined from high quality stainless steel full-flow swivel and Nitrile non-toxic food grade seals ensuring clean, non-contaminated, safe and reliable transfer of breathing air, potable water or other clean fluids.

- Provide safe storage of respiratory air hose line for low and high pressure breathing air systems
- Provides storage for potable water hose line for drinking water systems
- Provides storage of any hose requiring sanitized and non-contaminated fluid transfer applications
- Offered in spring rewind, hand crank, and motorized retraction options
- Applied in fields of application such as fire rescue, pharmaceutical manufacturing, food and chemical processing plants, hazardous site cleanups, and medical and hospital air services
