

240 Watt LED Light

Published on Chem.Info (<http://www.chem.info>)

240 Watt LED Light

In a LED landscape littered with low wattage hazardous location lights, Larson Electronics released the HAL-HB-240W-LED 240 watt LED light for Class 1 Division 2 areas. It is available with a variety of optics for optimal coverage depending on mounting height.

- High powered LED light comes closer to replicating 1000 watt metal halide illumination
- Available with a 19, 25, 40 and 125 degree optic configuration
- Designed for hazardous areas where dusts or vapors are expected only under unusual situations
- The standard 19,000 lumen configuration operates on 90-277 VAC 50/60hz and is available in 6500k, 4300k and 3500k white color
