

FAS Sprint Revolution Bagger

Operating at 900 inches per minute, Automated Packaging Systems Inc.'s FAS sprint revolution bagger is ideal for high speed food packaging with easy wash-down. This cutting-edge system presents a conveyor of pre-opened bags that are staged for immediate loading.

- 60" wide load area features a 6" pass-through
- Tilts vertically for easy maintenance and sanitation
- SidePouch® bags provide optimum performance
- Feature reclosable zippers, resealable plastic bags, reinforced headers and tamper-evident perforations
- Bags can also be pre-printed in up to 10-colors with high-resolution graphics, text and bar codes
