

Case Sealers

Eagle Packaging Machinery's case sealers reduce time that is wasted when manually sealing cases and are available in automatic and semi-automatic models. Ideal for small and growing companies, the sealers provide an accurate and consistent sealing process.

- Available in two semi-automatic models: CS12 and CS-12H
- Used for standard or tall and narrow cases
- Feature heavy duty side-belt drives and side mounted rollers that ensure square cases and tight seals
- All models are capable of applying tape to both the bottom and top of the cases
- Equipped with a tool-less tape head, permitting operators to easily remove tape cartridges and allowing for an accurate and consistent sealing process
