

Wireless Remote Monitoring Systems

| Name | Value | Data Input |
|--------------------|-------|------------------|
| Red Wash Counter | 27 | 2013/07/18 08:00 |
| Blue Sol Point | 270 | 2013/07/18 08:00 |
| Continuity | 200 | 2013/07/18 08:00 |
| Flow Rate Pressure | 10 | 2013/07/18 08:00 |
| Flow Valve Pos. | 10 | 2013/07/18 08:00 |
| Flow Rate | 10 | 2013/07/18 08:00 |

VRTX Technologies' wireless remote monitoring systems for their cooling water treatment solutions automatically and instantly provide operational feedback and alerts. The systems use GSM cell phone modem interfaces that help companies carefully evaluate and maintain cooling water treatment procedures.

- Communication and monitoring of systems independent of a customer's network
- Data that is available through a secure web portal
- Remote trouble-shooting and repair
- Encrypted communications
- that automates the system's operation while continually monitoring performance based on customizable parameters
