

Biological Safety Cabinets

Air Science has introduced its new line of Biological Safety Cabinets. The Purair BIO is designed to protect individuals, the environment, and products from a variety of biological particulates, serving as the primary barrier in life science research and experimentation.

- Class II Type A2 Biosafety Cabinet
- Minimizes and contains Biosafety Level 1-3 agents, maintaining negative pressure inside the cabinet during operation to prevent contaminants from escaping the work area
- HEPA filtration scours 70% of the incoming room air to protect the products
- Remaining 30% of the exhausted air is filtered by a second HEPA filter
- Provide ample workspace with environmentally sound operation and low energy consumption
- Available with or without NSF 49, EN12469 and UL61010-1 certification
