

LED Pedestal

The high output BML-150LED magnetic mount LED work light from Magnalight produces 14,790 lumens of light capable of illuminating an area 18,000 square feet in size. Weatherproof and suitable for wet areas, this LED equipped fixture is mounted within an aluminum frame equipped with adjustable handle and magnetic foot pads that provides simple setup and easy carry transport. This magnetic mount LED work light is ideal for workers who desire a light they can set down and plug in as a pedestal light or mount to metallic surfaces such as tank walls. The units are waterproof to 3 meters and sealed against intrusion by dust and dirt. The units are suitable replacements for fragile and hot running portable 400 watt metal halide lamps, as they run cooler, are more durable and use less power.
