

Microscopes & Slides

New microscopes from Denville Scientific are designed to provide the maximum optical performance on durable and affordable platforms. The company has a variety of models with unique features, including trinocular camera and video mounts. A range of objectives are available including Achromat, Semi-Plan and Plan Achromat. All Microscopes come with a 5 year mechanical warranty. The Microscope selection includes basic and advanced models as well as Epi-Fluorescence and Stereo-Zoom models. In addition Denville Scientific now offers a variety of microscope slides, which can be ordered either frosted or positively charged.
