

# Explosion Proof Flashlight

The EXP-LED-RL-FX5R Explosion Proof Rechargeable LED Flashlight from Larson

Larson Electronics is a lighting solution for hazardous location operators who require Class 1 Division 1 compliance as well as durability and high power. This light weight LED light is built from impact resistant ABS plastic and fitted with a shatterproof LEXAN lens to provide durability and easy handling. This flashlight is equipped with a set of forward mounted LEDs for standard operation and a group of three rear-facing LEDs for signaling and location beacon operating modes. The forward-facing LED lamp assembly is adjustable to allow operators to either use the light as a standard flashlight, or set the light down and angle the beam as needed for temporary work area illumination or simple hands free lighting.
