

Flexible Screw Conveyor

The Flexible Screw Conveyor from Vac-U-Max is an economical method of conveying product from bulk bag unloaders, bag dump stations and storage vessels. Available in a range of sizes, the conveyors typically transfer product

over distances of up to 40' and rates of up to 10 tons per hour for materials having a bulk density of 40 pounds per cubic foot. Typical applications include the refilling of packaging machine hoppers, metered feed into mix tanks such as lime addition and gain in weight hopper filling.
