

Sierra Instruments: Precise Gas Mass Flow Control

chemdotinfo

Sierra Instruments introduces its Smart-Trak® 2 — a significant re-design of the Series 100 digital mass flowmeters and controllers (see video). The result of more than 5 years of user feedback, new features of the Smart-Trak® 2 add even more control, independence and flexibility. Sierra has additionally designed the Compod™, a Smart-Trak® 2 add-on that expands networking, while streamlining functionality and reducing costs.
